

New Zealand Journal of

Botany

Volume 30 1992

Wellington

Editors: Dr Carol J. West
Frances Kell

New Zealand Journal of Botany (ISSN 0028-825X)
Vol. 1, No. 1 (December 1962)

Volume 29, Number 4 published 17 December 1991
Volume 30, Number 1 published 30 March 1992
Volume 30, Number 2 published 5 June 1992
Volume 30, Number 3 published 4 September 1992

Scientific and Industrial Research Publishing of New Zealand (SIR Publishing) is a publishing unit incorporated within The Royal Society of New Zealand. Formerly the DSIR Publishing unit of the New Zealand Department of Scientific and Industrial Research, the unit was transferred to the Society on 1 July 1991.

The Royal Society of New Zealand has objects and functions consistent with its role as New Zealand's national academy of sciences, a federation of scientific and technological societies, and an association for the advancement of science and technology. The Society is charged with the statutory responsibility to promote scientific endeavour and achievement and to inform the Crown on science and technology. Established in 1867 as *The New Zealand Institute*, the Society is a Crown Agency incorporated under *The Royal Society of New Zealand Act, 1965*. It comprises Fellows, Branches, affiliated Scientific Societies, and members.

Permission to photocopy for internal or personal use or the internal or personal use of specific clients is granted by The Royal Society of New Zealand for libraries and other users registered with the *Copyright Clearance Centre* (CCC), provided that the stated fee per copy is paid directly to the CCC, 21 Congress Street, Salem, MA 01970, USA. Special requests should be addressed to SIR Publishing.

The code on the first page of an article indicates the above consent and includes the fee per copy to be paid to the CCC.

This journal is listed in: Biological Abstracts; Bulletin Signalétique; Chemical Abstracts; Current Contents; Ecological Abstracts; Forestry Abstracts; GeoArchive; Index to Book Reviews in the Sciences; IRL Life Sciences Collection; Microbiology Abstracts—Section C; Science Citation Index; SIRIS/STIX.

CONTENTS

Volume 30 1992

Number 1

Ecology

- Genecology of *Agrostis capillaris* L. (Poaceae) – an invader into New Zealand. 1. Floral phenology G. L. Rapson 1
J. B. Wilson

- Genecology of *Agrostis capillaris* L. (Poaceae) – an invader into New Zealand. 2. Responses to light, soil fertility, and water availability G. L. Rapson 13
J. B. Wilson

- Germination of miro (*Prumnopitys ferruginea*) seeds after consumption by New Zealand pigeons (*Hemiphaga novaeseelandiae*) M. N. Clout 25
J. A. V. Tilley

- Population dynamics of the nikau palm, *Rhopalostylis sapida* (Wendl. et Drude), in a temperate forest remnant near Auckland, New Zealand N. J. Enright 29
A. D. Watson

- Fruit and seed production in *Berberis darwinii* Hook., a shrub recently naturalised in New Zealand R. B. Allen 45
J. B. Wilson

- Patterns of disseminule dispersal by drift in the southern Coral Sea J. M. B. Smith 57

- Factors affecting reproductive behaviour in the New Zealand nikau palm, *Rhopalostylis sapida* Wendl. et Drude N. J. Enright 69

- Water potentials in native woody vegetation during and after a drought in Canterbury K. P. C. Innes 81
D. Kelly

Mycology and plant pathology

- New species and new records of Aphyllophorales (Basidiomycetes) from New Zealand P. K. Buchanan 95
I. A. Hood

Short communications

- A method for inducing rapid germination in seed of *Discaria toumatou* Raoul J. A. Keogh 113
P. Bannister

- A new combination in *Pomaderris* (Rhamnaceae) in New Zealand N. Walsh 117

Book review

- A manual of the flowering plants of Hawaii B. D. Clarkson 119

Number 2

Ecology

- | | | |
|--|---|-----|
| Fruit selection by birds in relation to fruit abundance and appearance in the naturalised shrub <i>Berberis darwinii</i> | R. B. Allen
W. G. Lee | 121 |
| Mast seeding of <i>Chionochloa</i> (Poaceae) and pre-dispersal seed predation by a specialist fly (<i>Diplotoxa</i> , Diptera: Chloropidae) | D. Kelly
M. J. McKone
K. J. Batchelor
J. R. Spence | 125 |
| Ecology of <i>Kunzea ericoides</i> (A. Rich.) J. Thompson (kanuka) in east Otago, New Zealand | R. B. Allen
T. R. Partridge
W. G. Lee
M. Efford | 135 |
| Reproductive biology of <i>Geranium sessiliflorum</i> . III. Population ecology of two populations and three leaf colour morphs | M. Philipp | 151 |
| Long-term monitoring of non-forest communities for biological conservation | K. J. M. Dickinson
A. F. Mark
W. G. Lee | 163 |

Genetics and reproductive biology

- | | | |
|---|--|-----|
| Chromosome numbers, karyotypes, and nuclear DNA variation in <i>Pratia</i> Gaudin (Lobeliaceae) | B. G. Murray
E. K. Cameron
L. S. Standring | 181 |
|---|--|-----|

Mycology and plant pathology

- | | | |
|---|----------------|-----|
| Mating systems of three New Zealand agarics | R. H. Petersen | 189 |
|---|----------------|-----|

Physiology and biochemistry

- | | | |
|---|--|-----|
| Screening of New Zealand native plants for enzyme inhibitory activities | S. J. Kellam
M. H. Tisch
J. R. L. Walker | 199 |
|---|--|-----|

Short communications

- | | | |
|---|--|-----|
| Taxonomic notes on two New Zealand mosses: <i>Bryobartlettia costata</i> Buck (Fabroniaceae) and <i>Calliergon laxirete</i> Zant. et Bartlett (Amblystegiaceae) | J. E. Beever | 205 |
| A new combination for <i>Polypodium pustulatum</i> Forster f. (Polypodiaceae) | M. F. Large
J. E. Braggins
P. S. Green | 207 |

Book reviews

- | | | |
|---|---------------------|-----|
| Ecology and conservation of Tasmanian <i>Sphagnum</i> peatlands | P. N. Johnson | 209 |
| Botany of Rotorua | A. E. Esler | 210 |
| Flora of the Indian desert (2nd edition) | P. J. Garnock-Jones | 211 |

Number 3

Biosystematics and phytogeography

- Observations on biosystematic relationships of *Kunzea sinclairii* and on an intergeneric hybrid *Kunzea sinclairii* × *Leptospermum scoparium* W. Harris, N. G. Porter and M. I. Dawson 213

- Two new names in *Macropiper* Miq. (Piperaceae) from New Zealand W. R. Sykes 231

Bryology and lichenology

- Studies of Fissidens (Bryophyta: Musci) in New Zealand: *F. taxifolius* Hedw. and *F. integerrimus* Mitt. J. E. Beever and I. G. Stone 237

Ecology

- Hawkweeds, *Hieracium* spp., in tussock grasslands of Canterbury, New Zealand, in 1960s H. E. Connor 247

- Litterfall from a mixed red beech (*Nothofagus fusca*)-silver beech (*Nothofagus menziesii*) forest, central North Island, New Zealand P. J. Sweetapple and K. W. Fraser 263

- Vegetation-environment relations in snowbanks on the Rock and Pillar Range, Central Otago, New Zealand J. M. Talbot, A. F. Mark and J. B. Wilson 271

- Evidence for rising upper limits of four native New Zealand forest trees P. Wardle and M. C. Coleman 303

Genetics and reproductive biology

- Isozyme variability and biogeography of *Nothofagus truncata* (Fagaceae) P. Haase 315

Mycology and plant pathology

- Rhytismataceae in New Zealand. 6. Checklist of species and hosts, with keys to species on each host genus P. R. Johnston 329

- Some electron microscope observations of conidium ontogeny of *Sphaceloma murrayae* on *Salix* A. G. Spiers and D. H. Hopcroft 353

Short communications

- Isozyme variation and genetic relationships in *Phyllocladus trichomanoides* and *P. alpinus* (Podocarpaceae) P. Haase 359

- Two new species names in *Olearia* (Asteraceae) from New Zealand H. D. Wilson and P. J. Garnock-Jones 365

Book reviews

- Absciscic acid: physiology and biochemistry P. E. Jameson 369

Number 4

Ecology

Snow tussock (*Chionochloa*) population responses to removal of sheep and European hares, Canterbury, New Zealand

A. B. Rose and
K. H. Platt 373

Wetland vegetation recovery after fire: Eweburn Bog, Te Anau, New Zealand

Susan M. Timmins 383

Genetic and reproduction biology

Sex ratios from seed in six families of *Scandia geniculata* (Apiaceae)

C. J. Webb 401

Phycology

Silica-scaled Chrysophyceae (Mallomonadaceae and Paraphysomonadaceae) from New Zealand freshwaters

Daniel E. Wujek and
Charles J. O'Kelly 405

Structure and development

Wood anatomy of the dicotyledons indigenous to New Zealand. 22. Proteaceae

Rajni N. Patel 415

Short communications

Growth response to light of *Carex inopinata* Cook, an endangered New Zealand sedge

Michael D. Morgan and
David A. Norton 429

Forsythiaside and a mevalonolactone glucoside derivative from *Hebe stricta* var. *atkinsonii* (Scrophulariaceae)

Stephen J. Kellam,
Kevin A. Mitchell,
John W. Blunt,
Murray H. G. Munro and
John R. L. Walker 435

Book review

Processes of vegetation change

Katharine J. M. Dickinson 437
